MCB 5471:
Current Topics in Molecular Evolution: Evolution through Genetic Exchange

SPRING 2011
1 credit

Time: Mondays 11am
First Meeting: Monday, 1/24/2011 at 11 am
Instructors: J. Peter Gogarten and David Williams (MCB)
Where: BP 201
(Note: This is different from the old peoplesoft listing)

This semester the course will focus “Evolution through Genetic Exchange”. Reading materials will be articles from Nature Reviews in Microbiology and from Michael Arnold’s book “Evolution through Genetic Exchange” (electronic version available through the library). Syllabus at http://gogarten.uconn.edu.

Students are expected to present on at least one chapter or journal article.
